Here you'll find the results from the manual and automated tests carried out on the system. The manual tests are further described in the 6.2. Manual testing (https://github.com/jimmybengtsson/grupp03-redriver/wiki/6.2-Manual-testing) document. The automated tests are described in the 6.1. Automated testing (https://github.com/jimmybengtsson/grupp03-redriver/wiki/6.1-Automated-testing) document and are documented with the client test code (https://github.com/jimmybengtsson/grupp03-redriver/tree/master/client/__tests__) and server test code (https://github.com/jimmybengtsson/grupp03-redriver/tree/master/server/Postman).

When a bug is detected they should be tracked using the Github repo issues (https://github.com/jimmybengtsson/grupp03-redriver/issues) so that everyone in the group knows what needs to be worked on.

Iteration	Requirements	Type of testing	Date	Test report
4	–	Automated (Server)	April 17th	April 17th, 12:47 (https://github.com/jimmybengtsson/redriver/wiki/7.1-Iteration-4#server-ctest-april-17th-1247)
